## Introduction

This documentation details information for the October 2017 release covering updates to Care Control Mobile and Care Control Pocket.

## System Versions Covered

This release covers Care Control Mobile versions 4.12 and above. The database version following this upgrade is version 1.25. Care Control Pocket 1.13 and above.

## Overview of Changes

This release focusses on improving the Care Control Mobile System performance when being used on a slower internet connection. Many of these changes are not visible to the end user, but are part of the app behind the scenes.

**We strongly advise that users should download version 4.12 to improve performance across all devices that use Care Control Mobile.**

In addition, we have implemented new functionality with regards Handover Notes. You can now create your own Handover Groups that can be selected by staff when completing Handovers.

## Major Changes to be Aware Of

### Care Control Mobile Changes

- Many infrastructure improvements
- Ability to create Handover Note Groups
- Ability to edit and view the new Generic Risk Assessments

## Bug Fixes

- A number of bug fixes have been attended to.

## Detailed Guidance for Major Changes

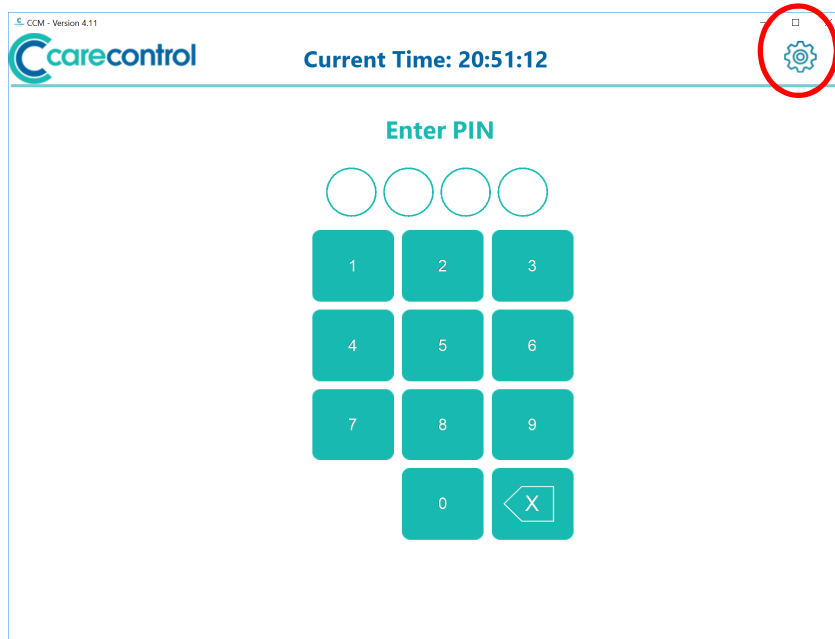

Please find below a more detailed review of the major changes in this release: -

### Handover Note Groups

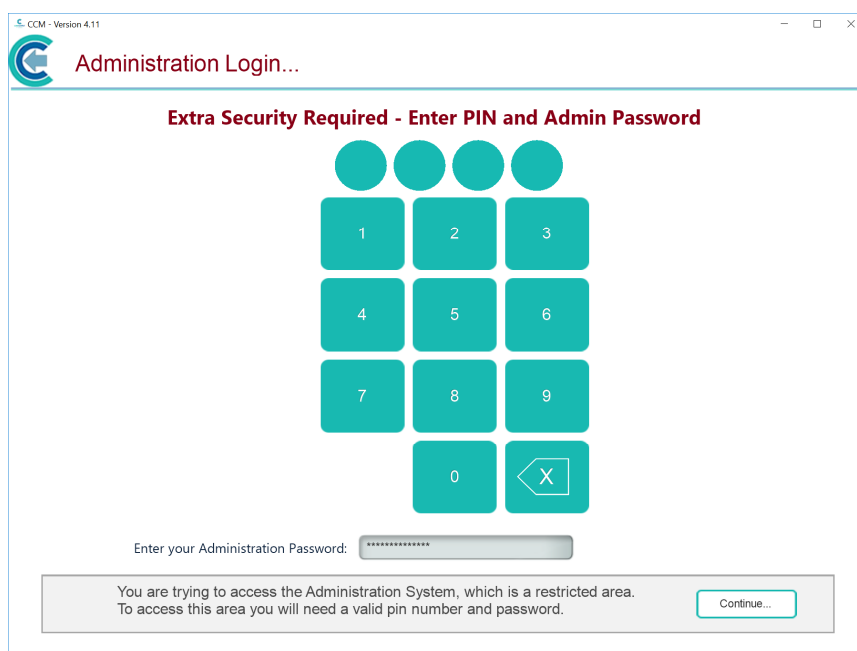

**System: CC Mobile**

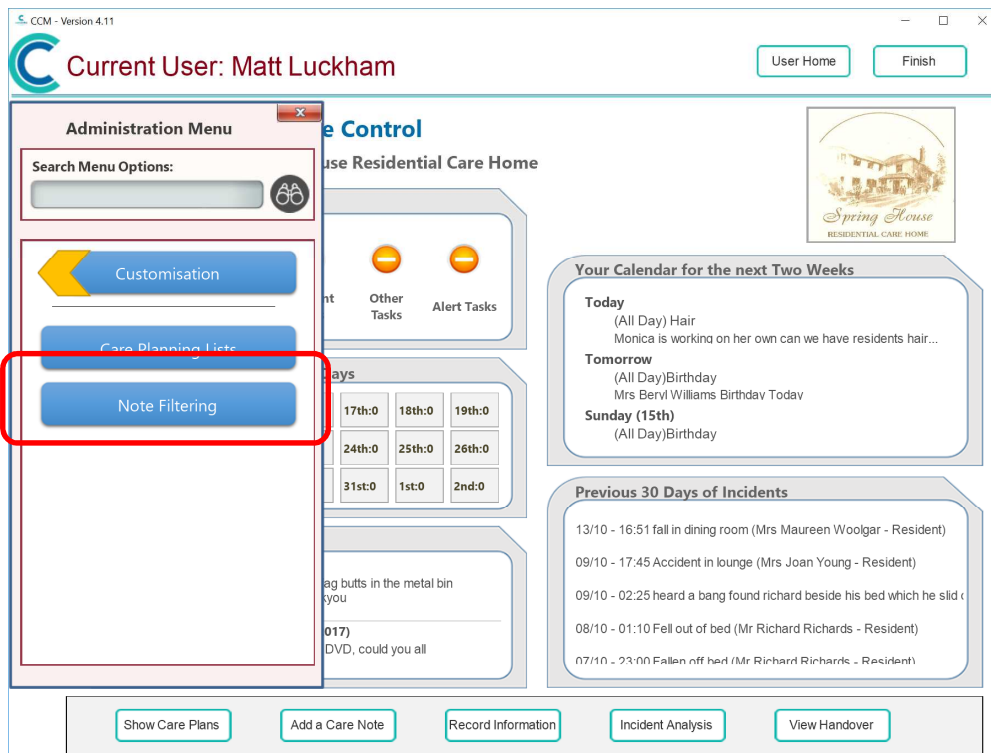

**Detail:**

You can now create Handover Note Groups: -

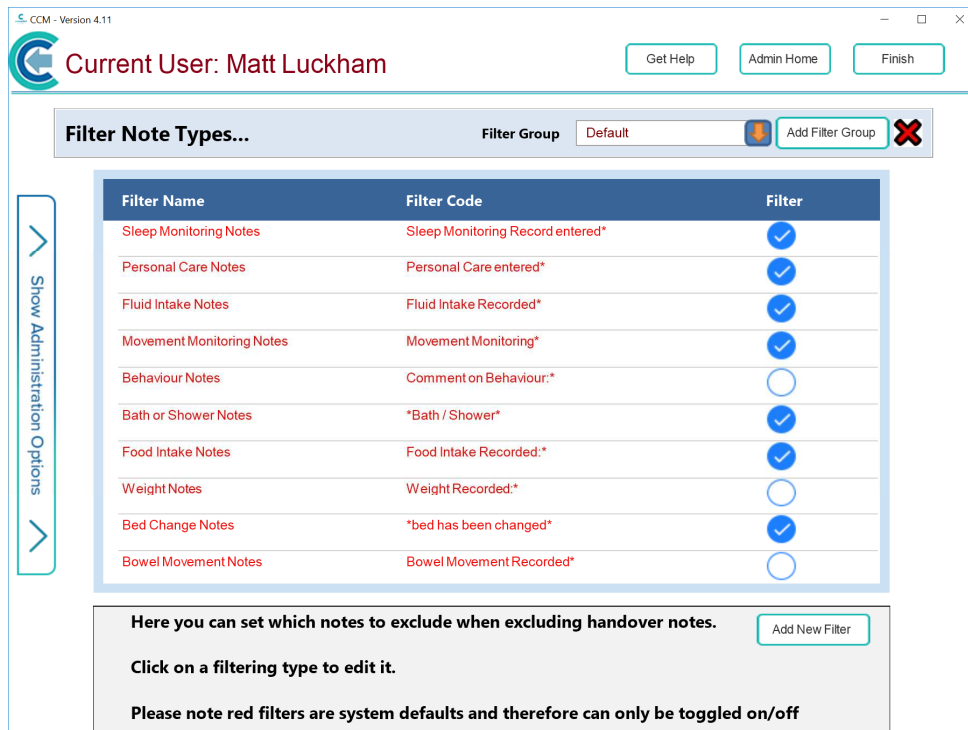

Login in to the Admin through CC Mobile.

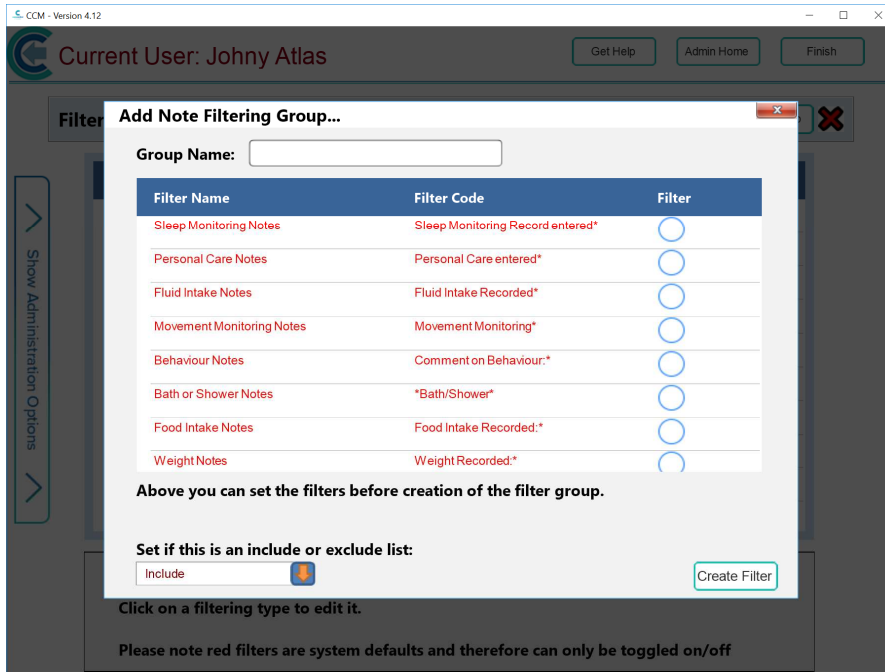

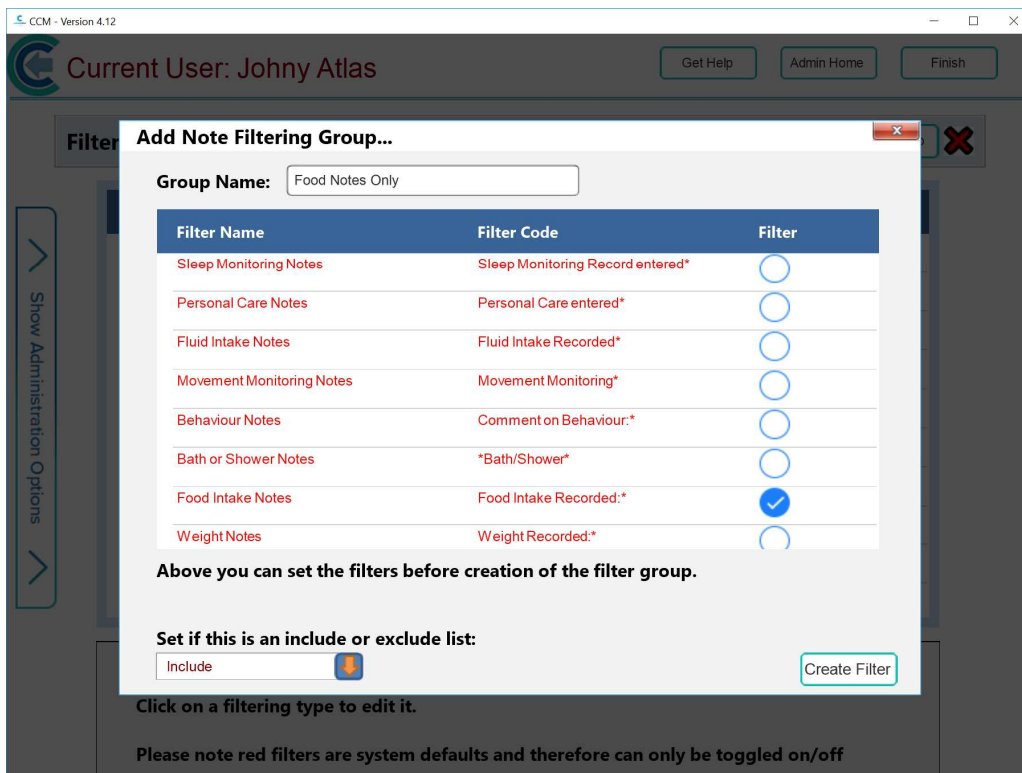

Find the Note Filtering Option in the Admin Area.

From this screen you can create a new Handover Group: -

You can enter a name for your group and select the note filters to include. You can also specify if this is an Include or Exclude group.

CCM - Version 4.11

Current User: Matt Luckham

Get Help Admin Home Finish

**Filter Note Types...** Filter Group: Bath Shower Notes Add Filter Group X

Filter Name	Filter Code	Filter
Sleep Monitoring Notes	Sleep Monitoring Record entered*	<input type="radio"/>
Personal Care Notes	Personal Care entered*	<input type="radio"/>
Fluid Intake Notes	Fluid Intake Recorded*	<input type="radio"/>
Movement Monitoring Notes	Movement Monitoring*	<input type="radio"/>
Behaviour Notes	Comment on Behaviour:*	<input type="radio"/>
